With corn above 50 ets. hogs eat their heads off very quickly. The hog that takes two or three months to get on full feed never brings you a profit.

When you are ready to put your shoats on feed, begin with the B. A. Thomas Hog Medicine. Use regularly and watch your shoats round out into fat hogs in nine months-hogs going well over 200 pounds and as high as 240 pounds, Figure the average feeding and you will see why the B. A. Thomas medicine is a good investment. Try feeding out your hogs on this plan and if you are not more than pleased, we will refund the cost of the medicine.

Who Captured John Brown?

Philadelphia, Pa., June 2. Who captured John Brown at Harper's Ferry in 1859?

An orator, at the memorial exereises held at a local cemetery last Tuesday made the assertion that United States Marines, led by Robert E. Lee, made captive the rabel leader, although Grand Army men who heard it, declared the statement false.

However, Marine Corps officers case calls in the hat members of the United States ines Corps, and not soldiers of the army captured John Brown, is well-established.
